

## HOW TO COLLECT VALID SIGNATURES

Thank you for helping us legalize cannabis in Arizona! We rely on volunteers to spread the word.

We're trying to change the law, so we must follow strict procedures. Please use these instructions exactly to make your signatures count.

### Before you begin

- To qualify to collect signatures, you must be eligible to vote (in Arizona or another state)
- You may only collect signatures from Arizona registered voters

### Prepare your petition

- Make sure your petition is properly assembled:
  - The packet has eight sheets of legal size paper (8.5" x 14"), printed double sided
  - The notary is on the back of the first sheet
  - The petition pack is stapled on the bottom left corner of the signature sheet
  - The staple must never become undone—if it does, the entire petition is invalid
- Check-mark "volunteer" in the upper right corner
- Write the county you're collecting signatures from in the second blank above the signature table—leave the first blank empty

### Collect signatures

- Use blue or black ink
- Make sure everyone who signs is registered in the county you wrote on the petition
- If someone from another county wants to sign, start a new petition for that county
- Each signer must fill out each field on the signature table
  - They may not leave any spot blank
  - They may not abbreviate the city name ("Phoenix," not "Phx")
  - If several people from the same household want to sign, each must write their address in full—they cannot use a down arrow or quotes for "ditto"

### Turn in your petition

- When you're done with your petition, get it notarized
  - Check your county group on Facebook for your local notary
  - Banks also often have free notaries
- Return your petition (three options)
  - Go to your county group meeting
  - Ship **notarized** petitions to Safer Arizona, P.O. Box 4541, Mesa, Arizona 85211
  - Schedule a pick-up: email [SaferArizona2018@gmail.com](mailto:SaferArizona2018@gmail.com) or call Annita at (520) 442-5032
