

LEGALIZE CANNABIS ARIZONA 2018

Safer Arizona is a nonpartisan coalition of ordinary citizens working to end cannabis prohibition in Arizona. Our proposed law is called the Safer Arizona Cannabis Legalization Act (SACLA).

We believe adults should have the right to use cannabis, a safe product, as they please and that arresting and incarcerating people for their use or sale of cannabis is unjust.

Safer Arizona Cannabis Legalization Act

Repeals Prohibition

- Makes cannabis legal to use, grow, and sell
- Legalizes industrial hemp

Post-Conviction Relief and Expungement

- Allows people who are convicted of a cannabis crime to request to be re-sentenced under the new law
- Allows people who have already served their sentence to request to have the crime expunged from their record

Job Creation

- Gives equal rights to businesses, small growers, and individuals
- Does not favor large, established companies through unfair restrictions and fees

No Discrimination

- Prohibits discrimination against drivers, parents, gun owners, or others solely based on their use of cannabis
- Does not affect law enforcement's ability to prosecute unsafe driving and negligent parenting

Reasonable Regulation

- Allows adults to use cannabis freely, the way you can use other legal substances
- Requires cannabis companies to follow the workplace and other regulations required in their industry (such as farms, bakeries, restaurants, and manufacturing)

Consumer Safety

- Requires mandatory testing and labeling for commercial sales
- Sets up restrictions and fines for selling to people under 21
